EAGLE FORD SHALE ACTIVITIES UPDATE

Strike Energy Limited is pleased to advise that flow back operations have commenced at its' Eagle Ford Shale production test well – Bigham 1H. Initial production testing will be undertaken once flows from the well have cleaned up.

Strike participates in over 37,400 acres in the Eagle Ford Shale through its 27.5% interest in the Eagle Landing Joint Venture (approximately 10,300 acres net to Strike).

I look forward to updating shareholders once initial production testing has been completed.

Yours faithfully

A handwritten signature in black ink, appearing to read "DWrench".

DAVID WRENCH
Managing Director
