

CORPORATE GOVERNANCE STATEMENT 2016

INTRODUCTION

The board of directors of Strike Energy Limited (the **Board**) is responsible for the corporate governance of Strike Energy Limited (the **Company**). Details of the main corporate governance policies that form the basis of the Company's corporate governance framework are available [here](#).

In accordance with ASX Listing Rule 4.10.3, this corporate governance statement discloses the extent to which the Company has followed the current recommendations set by the ASX Corporate Governance Council (**Recommendations**) during the financial year ended 30 June 2016 (**Reporting Period**), by reference to the eight ASX Corporate Governance Council principles.

Unless otherwise indicated in this statement, the Company has complied with each of the Recommendations.

This corporate governance statement has been approved by the Board and is current as at 7 September 2016.

1 LAY SOLID FOUNDATIONS FOR MANAGEMENT AND OVERSIGHT

1.1 Roles of The Board and Management

(Recommendations 1.1, 1.3, 1.4)

The Board guides and monitors the business of the Company on behalf of security holders, by whom they are elected and to whom they are accountable. The Board is responsible for setting the Company's direction, defining policies and monitoring its operations, to ensure it is conducted appropriately and in the best interests of security holders.

The Board has adopted a formal charter, which is available [here](#). The Board Charter details the functions reserved for the Board and those delegated to management.

The Company Secretary is accountable directly to the Board, through the Chairman, on all matters to do with the proper functioning of the Board.

The Company has a written agreement with each director and senior executive, setting out the terms of their appointment.

1.2 Appointment and Election of Directors

(Recommendation 1.2)

If it is necessary to appoint a new director to fill a vacancy on the Board or to complement the existing Board, a wide potential base of possible candidates is considered and external consultants are engaged where necessary to assist in the selection process. The Company's Nomination and Remuneration Committee and the Board, in turn, assesses the qualifications of the proposed new director against a range of criteria including background, experience, professional skills, personal qualities, potential for the candidate's skills to augment the existing Board and the candidate's availability to commit to the Board's activities. The objectives and responsibilities of the Nomination and Remuneration Committee are set out in the Committee's charter which is available [here](#).

If these criteria are met and the Board appoints the candidate as a director, that director will fill a casual vacancy but must retire at the next annual general meeting. Such a director is not taken into account in determining the number of directors to retire by rotation at that annual general meeting under the constitution of the Company, which requires one third of the directors, other than alternate directors and the Managing Director, to retire from office at each annual general meeting. Retiring directors are eligible for re-election by security holders. The Company provides security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director.

1.3 Diversity

(Recommendation 1.5)

The Company recognises that diversity in the workforce results in greater organisational strength and innovation, deeper problem solving ability and the generation of a wider range of new business opportunities. The Company is committed to attracting and retaining a diverse range of talented individuals to work in all levels of the organisation.

The Company has a diversity policy that complies with Recommendation 1.5(a) which is available [here](#).

The table below outlines the measurable objectives for achieving gender diversity set by the Board in accordance with the Company's diversity policy and the Company's progress towards achieving them.

Objectives	Progress achieved
Set and review development plans with female employees to set goals relevant to their career objectives and monitor achievement toward goals.	Discussions have been held with all female employees and training opportunities have been provided to assist with the achievement of this objective.
At least 1 female employee in a senior executive or Board position by 2015.	Ms Jody Rowe was appointed as a non-executive director on 30 June 2014, and is also the chair of the Company's Audit and Risk Committee.
Annually review flexible working arrangements to ensure individuals are able to maintain career development.	Flexible working arrangements are provided whenever requested and wherever practicable, having regard to the Company's size and the Company and employee requirements.

The table below outlines the respective proportions of male and female employees in the whole organisation, in senior executive positions and on the Board. For these purposes, the Company has defined "senior executives" to mean the Managing Director and those executives who report directly to the Managing Director.

Role	Female	Female %	Male	Male %
Whole Company	4	24%	13	76%
Senior Executives	0	0%	4	100%
Board	1	17%	5	83%

1.4 Evaluation of Performance

(Recommendations 1.6 and 1.7)

The Company's process for periodically evaluating the performance of the Board, its committees and individual directors is that the Company's Nomination and Remuneration Committee:

- evaluates and reviews performance against both measurable and qualitative indicators that are established by the Committee from time to time; and
- reviews and makes recommendations to the Board on the size and structure of the Board.

The Committee may obtain independent professional advice when necessary at the expense of the Company.

An evaluation of the performance of the Board, its committees and individual directors was carried out in accordance with this process during the Reporting Period.

The Company's process for periodically evaluating the performance of the Company's senior executives is for the Managing Director to initially review the performance of these individuals. The Managing Director then reports the results of this review to and consults with both the Board and the Nomination and Remuneration Committee.

An evaluation of the performance of the Company's senior executives was carried out in accordance with this process during the Reporting Period.

2 STRUCTURE THE BOARD TO ADD VALUE

2.1 Nomination Committee

(Recommendation 2.1)

The Board has a Nomination and Remuneration Committee which consists of two non-executive, independent directors, namely Mr Simon Ashton and Mr Brendan Ostwald, who are responsible for assisting the Board with its responsibilities relating to nomination, appointment and remuneration of directors and senior executives including the administration of the Company's employee share incentive plan.

The Nomination and Remuneration Committee is chaired by Mr Ashton, a non-executive, independent director of the Company.

Throughout the Reporting Period, the Company has not followed Recommendation 2.1(a)(1) in that the Nomination and Remuneration Committee consisted of two members rather than three. This Recommendation was not followed because the Board is of the view that, given the current size of the Company, the Nomination and Remuneration Committee is of sufficient size and independence to effectively discharge its objectives and responsibilities and that it has an appropriate diversity of membership to avoid entrenching unconscious bias.

The charter of the Nomination and Remuneration Committee is available [here](#).

The number of meetings of the Nomination and Remuneration Committee during the Reporting Period and the number of attendances of the Committee members at those meetings are set out in the Directors' Report in the Company's Annual Report for the Reporting Period, which can be viewed [here](#).

2.2 Board Skills

(Recommendation 2.2)

The Board, with the assistance of the Nomination and Remuneration Committee, is collectively responsible for ensuring that the Board has the appropriate range and mix of expertise and experience to properly fulfil its responsibilities, including expertise in finance, business, the oil and gas industry, legal and executive management skills. The mix of skills and diversity currently represented at the Board is set out in the following Board skills matrix.

Expertise	Experience	
<ul style="list-style-type: none">• Strategy• Commercial acumen• Health and safety• Finance and risk management• Legal, governance and compliance• Remuneration and nominations• Government relations• Executive leadership	<u>Industry</u> <ul style="list-style-type: none">• Oil & gas• Mining and utilities• Infrastructure• Banking <u>Geography</u> <ul style="list-style-type: none">• Australia• Asia• North America	<u>Market</u> <ul style="list-style-type: none">• Exploration and appraisal• Corporate finance• Funding and project finance• Construction and procurement• Operations and maintenance

2.3 Director Independence

(Recommendations 2.3, 2.4 and 2.5)

Details of the directors, both in office at the date of this statement and those who held office during the Reporting Period, are set out in the Directors' Report in the Company's Annual Report for the Reporting Period, which can be viewed [here](#). This information includes their length of service.

The Board assesses the independence of new directors prior to appointment and reviews the independence of all directors as and when considered appropriate.

In considering whether a director is independent, the Board has regard to the independence criteria set out in the Corporate Governance Principles and Recommendations published by the ASX Corporate Governance Council and other facts, information and circumstances that the Board considers relevant.

The directors considered by the Board to be independent are Mr Simon Ashton, Ms Jody Rowe and Mr Brendan Ostwald.

The Board has assessed whether Mr Ashton's 19 year period of service might interfere, or might reasonably be seen to interfere, in a material respect, with his capacity to bring an independent judgement to bear on issues before the Board and to act in the best interests of the Company and its security holders generally. The Board is of the opinion that it does not so interfere because Mr Ashton is not involved in the day to day operations of the Company, has evidenced his independence over the years in the views he expresses, and continues to make an outstanding contribution to the Board through his industry knowledge and experience.

Throughout the Reporting Period, the Company has not followed Recommendation 2.4 in that half rather than a majority of the Board is independent. This recommendation was not followed because the Company is of the view that by having half of the Board independent, the Board is still able to reflect the best interests of the Company and its security holders and not be biased towards the interests of management or any other person or group with whom a non-independent director may be associated.

Throughout the Reporting Period, the Company has not followed Recommendation 2.5 in that while the chair of the Board is not the same person as the Managing Director, the chair of the Board is not an independent director because he indirectly holds more than 5 per cent of the Company's shares. This recommendation was not followed because the Board is of the view that the chair's indirect security holding does not hinder a culture of openness and constructive challenge that allows for a diversity of views to be considered by the Board. Wherever the chair is conflicted, an independent director is appointed to temporarily fulfil the role of the chair.

2.4 Director Induction and Professional Development

(Recommendation 2.6)

The Company has a program for inducting new directors in accordance with the charter of the Nomination and Remuneration Committee, which is available [here](#).

To assist directors to maintain an appropriate level of knowledge, skill and experience in the operations of the Company, directors are provided an opportunity to undertake site visits to familiarise themselves with the Company's operations. Directors are also encouraged to undertake continuing education relevant to the discharge of their obligations and responsibilities. Subject to prior approval by the Chairman, the reasonable cost of such education is met by the Company.

3 ACT ETHICALLY AND RESPONSIBLY

(Recommendation 3.1)

The Company has a code of business conduct and ethics for its directors, officers, senior executives, employees, consultants, contractors and associates, which is available [here](#).

The code of business conduct and ethics addresses honesty and integrity, compliance with the law, conflicts of interest, confidentiality, protection of Company assets, dealing with public officials, responsibility for international operations, employment practices, record keeping and community relations. The purpose of this code is to ensure that directors, officers, senior executives, employees, consultants, contractors and associates act honestly, responsibly, legally, ethically and in the best interests of the Company.

The Board has appointed the Company Secretary in the case of employees, and the chair of the Audit and Risk Committee in the case of directors and officers, as the person responsible for receiving reports of breaches of the code.

The Company has also adopted a whistleblower policy which sets out the procedure to follow in the event of a reported violation of the code.

4 SAFEGUARD INTEGRITY IN CORPORATE REPORTING

4.1 Audit and Risk Committee

(Recommendation 4.1)

The Board has an Audit and Risk Committee which consists of Ms Jody Rowe, Mr Simon Ashton and Mr David Baker, a majority of whom are independent directors.

Throughout the Reporting Period, the Company has not followed Recommendation 4.1(a)(1), in that Mr Baker is not a non-executive director. This recommendation was not followed because the Board is of the view that Mr

Baker's financial experience is of great value to the Audit and Risk Committee. Mr Baker originally trained as a banking and finance lawyer with a major Australian legal firm in Sydney and Singapore and has held high profile investment banking and resource industry leadership positions. Mr Baker does not chair the committee. The committee is chaired by Ms Rowe, a non-executive, independent director who is not the chair of the Board. The relevant qualifications and experience of the members of the Audit and Risk Committee are set out in the Directors' Report contained within the Company's Annual Report for the Reporting Period, which can be viewed [here](#).

The Audit and Risk Committee is responsible for ensuring the Company complies with appropriate and effective accounting, auditing, internal control, business and risk management, compliance and reporting practices. The charter of the Audit and Risk Committee is available [here](#).

The number of meetings of the Audit and Risk Committee during the Reporting Period and the number of attendances of the Committee members at those meetings are set out in the Directors' Report contained within the Company's Annual Report for the Reporting Period, which can be viewed [here](#).

4.2 Declarations of Managing Director and Chief Financial Officer

(Recommendation 4.2)

Before it approves the Company's financial statements for a financial period, the Board receives from the Managing Director and Chief Financial Officer a declaration that, in their opinion, the financial records of the Company have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the Company, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

4.3 Auditor Attendance at AGM

(Recommendation 4.3)

The Company ensures its external auditor attends its annual general meetings and is available to answer questions from security holders relevant to the audit.

5 MAKE TIMELY AND BALANCED DISCLOSURE

(Recommendation 5.1)

The Company is committed to ensuring that security holders and the market are provided with full and timely information and that all stakeholders have equal and timely access to material information concerning the Company.

The Company acknowledges that timely disclosure of price sensitive information is central to the efficient operation of the Australian Securities Exchange, and has adopted a Continuous Disclosure Policy which is available [here](#). This policy reflects the commitment of the directors and senior management to promoting consistent disclosure practices aimed at accurate, timely and broadly disseminated disclosure of material information to the market and ensuring the Company complies with its continuous disclosure obligations under the ASX Listing Rules and the Corporations Act 2001 (Cth).

6 RESPECT THE RIGHTS OF SECURITY HOLDERS

(Recommendations 6.1, 6.2, 6.3 and 6.4)

The Company places a high priority on communications with and accountability to security holders. The Board recognises that security holders, as the ultimate owners of the Company, are entitled to receive timely and relevant high quality information about their investment. Similarly, prospective investors should be able to make an informed decision when considering the purchase of shares in the Company.

To safeguard the effective dissemination of information and to facilitate effective two-way communication with investors, in addition to its Continuous Disclosure Policy, the Board has implemented and adopted a Shareholder Communications Policy which is available [here](#).

The Company provides information about itself and its governance to investors via its website and gives security holders the option to receive communications from, and send communications to, the Company and its security registry electronically.

Information is communicated to security holders and prospective investors on a timely basis by:

- Ensuring that published financial and other statutory reports are prepared in accordance with applicable laws and industry best practice;
- Ensuring the disclosure of full and timely information about the Company's activities in accordance with the continuous disclosure principles in the ASX Listing Rules and the Corporations Act 2001 (Cth);
- Responding to queries raised by security holders and prospective investors in a timely and appropriate manner;
- Providing detailed reports from the Chairman and the Managing Director at the annual general meeting and as part of the Company's periodic reporting obligations; and
- Ensuring all material information released to the market is available on the Company's website as soon as practical following its release.

In addition, on the Company's website, interested parties can subscribe to receive public releases and other relevant material concerning the Company electronically.

The participation of security holders at general meetings is facilitated and encouraged by the Board. At each general meeting, the chair ensures that security holders are given the opportunity to comment and ask questions of the Board and of the Company's auditors. In the event that security holders are unable to attend meetings, they are encouraged to lodge proxies signifying their approval or otherwise of the business to be considered and the Company gives them the opportunity to provide questions or comments ahead of the meeting.

In addition to actively engaging with security holders at general meetings, the Company meets up with security holders on request and responds to their queries from time to time, in a professional, respectful and timely manner.

7 RECOGNISE AND MANAGE RISK

7.1 Managing Risks

(Recommendations 7.1, 7.2, 7.3)

The Board has a committee which has responsibility for identifying, assessing and managing risks, namely the Audit and Risk Committee.

Details of the members and meetings of the Audit and Risk Committee are set out in the section of this statement entitled 'Audit and Risk Committee'.

Given its size, the Company does not have a formal internal audit function. The Company's management periodically undertakes an internal review of the effectiveness of the Company's risk management and internal control processes. The Audit and Risk Committee also monitors and reviews the effectiveness of the Company's implementation of its risk management system and internal controls as set out in the charter of the Audit and Risk Committee, which is available [here](#).

The Audit and Risk Committee reviews the Company's risk management framework at least annually to satisfy itself that it continues to be sound. Such a review took place during the Reporting Period.

7.2 Risks

(Recommendation 7.4)

The Company has material exposure to economic, environmental and social sustainability risks.

The financial risks to which the Company is exposed and the Company's approach to managing them are described in the Notes to the Financial Statements in the Company's Annual Report for the Reporting Period, which is available [here](#).

By the very nature of the Company's business, as an oil and gas exploration and development company, the Company has a material exposure to environmental risks connected with its in-field business activities and operations. To manage its exposure to environmental risk, the Company promotes and requires an excellent standard of environmental performance across its business and has adopted an environmental policy which is available [here](#). Further, the Company has developed and implemented environmental management systems to identify, assess and manage environmental risks, to ensure its employees and contractors are aware of their environmental responsibilities, to consult with the government and community in relation to the Company's operations and proposed projects, and to undertake regular audits and reviews on environmental performance.

The Company manages its economic and social sustainability risks by maintaining good relationships with its joint venture partners and investors and maintaining an indigenous relations policy and a health and safety policy, which are available [here](#). The Company also has a code of business conduct and ethics for its directors, officers, employees, consultants, contractors and associates which is available [here](#). The code of business conduct and ethics addresses, among other things, dealing with public officials, equal opportunity and community relations. The Company also negotiates land access agreements fairly and develops Health, Safety and Environment Management Plans for particular projects from time to time.

8 REMUNERATE FAIRLY AND RESPONSIBLY

8.1 Remuneration Committee

(Recommendation 8.1)

The Board has a remuneration committee, namely the Nomination and Remuneration Committee. Details of the members, meetings and charter of the Nomination and Remuneration Committee are set out in the section of this statement entitled 'Nomination Committee'.

Throughout the Reporting Period, the Company has not followed Recommendation 8.1(a)(1) in that the Nomination and Remuneration Committee consists of two members rather than three. This Recommendation was not followed because the Board is of the view that, given the current size and nature of the Company, the Nomination and Remuneration Committee is of sufficient size and independence to effectively discharge its objectives and responsibilities and that it has an appropriate diversity of membership to avoid entrenching unconscious bias. The committee is chaired by Mr Simon Ashton, a non-executive, independent director.

8.2 Remuneration

(Recommendations 8.2 and 8.3)

The Company's policies and practices regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives are set out separately in the charter of the Nomination and Remuneration Committee, which is available [here](#) and in the Remuneration Report included as a component of the Directors' Report within the Company's Annual Report for the Reporting Period, which is available [here](#).

The Company's Securities Trading Policy, which is available [here](#), prohibits persons who have received equity-based remuneration in the form of share options under the Company's Employee Share Incentive Plan from hedging those options prior to vesting of those options.
