JAWS-1 PROGRESS UPDATE

- **Bulk Civil Works now complete in preparation for rig mobilisation**

Strike Energy Limited (**Strike** - ASX: STX) is pleased to advise that the bulk civil works for the Jaws-1 Project have now been completed. This scope included the construction of two well leases and associated access tracks for the Vertical and Horizontal wells, turkey's nest, drilling camp pad and water storage pond to support the seven-stage fracture stimulation program.

All activities were completed in line with schedule and budget and this milestone marks the completion of the first field based work package as the Jaws-1 Project moves into the execution phase.

Jaws-1 is part of PEL96 of which Strike is Operator and the holder of a 66.667% joint venture interest, and Australian Gasfields Limited (**AGL**), a wholly owned subsidiary of Energy World Corporation Ltd (**EWC** - ASX:EWC), is the holder of a 33.333% joint venture interest.
